Dear GIPL Supporter,

This summer has been a time of new beginnings for all of us here at Georgia Interfaith Power & Light. We are pleased to announce that our offices have moved to a new location, and we are now sharing space with First Christian Church (Disciples of Christ) in Decatur. This also means we have a new mailing address:

**P.O. Box 286
Decatur, GA 30031**

Our phone number is still the same. Feel free to stop by our new office and say hello!

New Website

www.gipl.org

In addition to a new physical address, we have also launched our new home on the web. Our web address is still the same, and you'll still find the same resources we've always offered, but our new website also has tons of new features. Check it out at www.gipl.org.

While you're on our new website, take a moment to subscribe to [our new blog](#), where you can keep up with the latest green news, energy saving tips, advocacy updates, resource reviews, and creation care reflections.

Power Wise Launch

We've officially launched our new [Power Wise](#) program, which was [recently featured](#) on 11-Alive news by environmental reporter Marc Pickard. Visit our blog to read all about [our first audit](#) at North Springs United Methodist Church in Sandy Springs.

Through [Power Wise](#), we are offering low cost energy assessment to congregations across the state. These assessments are conducted by professional energy auditors, who then provide your congregation with a personalized Energy Audit Report that will help your congregation save energy. For congregations with fewer resources, we also offer [Matching Grants](#) of up to \$25,000 to help you embrace energy efficiency.

Visit our website to learn more and [find out how your congregation can sign up](#).

Staff Changes

We're also welcoming several new staff members to our office. You may have already met Alison Amyx, who was hired as our new Communications & Outreach Director in March. In May, Katie Preston, former GIPL intern, was hired full-time as our Administrative Coordinator, and she is now also serving as our South Georgia Outreach Coordinator. In June, we hired Bob Donaghue, who has 39 years of experience in the environmental field, as our new [Power Wise](#) Program Director. And finally, we've been pleased to host Cliff Poole, who has served as our very first [Beatitudes Summer Fellow](#) for the past 8 weeks.

We hope to see you at [our screening](#) of *Deep Down* on August 24! Until then, keep up the good work.

Peace & Light,

Executive Director

Communications & Outreach Director

Our mission is to engage communities of faith in stewardship of God's Creation as a direct reflection of our faithfulness through worship, education, and the sustainable generation and efficient use of energy.
