

Suggested Bulletin Announcements for Green Energy Day

Five weeks before.

Tired of “the pall of pollution”, smog days, asthma attacks, global warming? Be a part of the solution, not the problem. Watch for Green Energy Day, Sunday, _____.

Four weeks before.

Did you know that turning your computer off is the equivalent of planting 300 trees? Energy efficiency matters. Learn more at Green Energy Day, Sunday, _____.

Three weeks before.

Did you know that five homeowners replacing their old appliances with ENERGY STAR counterparts has the same effect on pollution reduction as planting an acre of trees? Come to Green Energy Day, Sunday, _____ to be part of the solution.

Two weeks before.

At Green Energy Day, Sunday, _____, you can sign up for electrical power produced from less polluting sources. And you can purchase compact fluorescent light bulbs that use one-fourth the energy of regular incandescent bulbs. Wear something green to church. Be green, not brown.

One week before.

Green Energy Day will start with the 9:00 service where _____ will preach on Care for the Creation. The adult education forum will feature _____ talking about the Spiritual Dimension of Creation Conservation. The children will have similar activities in the Sunday School. The whole day will be capped with a Creation Festival in the parish hall with displays, green candies and cookies, a place to sign up for Green Energy from your utility company, a place to purchase high quality, low energy compact fluorescent light bulbs and special prizes for those who take a step towards green. Join the new revolution as our church makes a statement for the Earth. Be sure and show your green with what you wear that day.
